PREMIER AIRCRAFT SALES NOW OFFERS SALES AND INSTALLATION
OF SATCOM DIRECT IRIDIUM PHONES AND SERVICES TO DIAMOND
AND MOONEY OWNERS

*Owners of high-performance singles and twins can now benefit from the
convenience and safety of having a true global phone in their aircraft.*

Fort Lauderdale and Satellite Beach, FL, (March 2, 2007) — Premier Aircraft Sales has announced that it has become a distributor for Satcom Direct, Inc's Iridium™ based handheld global satellite telephones.

“A high-performance aircraft such as a Mooney Acclaim or a Diamond DA40 XL can be excellent business tool and provide tremendous flexibility in serving the needs of your customers but often communication while en route is difficult,” stated Earle Boyter, Vice President of Premier Aircraft Sales. “Satcom Direct gives us the ability to offer to our customers a method of air-to-ground communication that is thousands of dollars less than an air phone and provides all the benefits of global availability.”

“Because the Iridium 9505A handheld satellite phone is not installed in the aircraft, it is perfect for general aviation,” added Tracy McLendon, Marketing Coordinator, Satcom Direct. “Pilots can take the phone with them wherever they go.” The only components actually installed in the aircraft are the top-mounted GPS L1 antenna and the Aero Cable kit.

“We have sold and delivered a number of Mooney and Diamond airplanes which travel throughout the Caribbean and Central and South America. The Iridium satellite phone will be the perfect complement to owners who frequently fly in areas with no or limited cell phone coverage,” Boyter added.

Along with the ability to call to and from anywhere while on the ground, Satcom Direct’s Iridium phone delivers unparalleled flexibility and safety into the cockpit in-flight. Using the optional Flightcell Pro adapter, pilots can plug the phone into the aircraft’s audio system and use their headset to make phone calls to FSS, FBOs or to a home or office. In the event of a COM failure, they can also use the battery-powered Iridium satellite phone to contact ATC or control towers to obtain clearances.

A unique feature of the Satcom Direct satellite phone system is the optional Global One Number. “With our patented ‘Global One Number’ you have a 10-digit U.S. phone number to call the Iridium phone wherever it is in the world,” McLendon said. “It’s the same as calling any phone in the country and we’re the only ones that offer it.”

About Premier Aircraft Sales

Since opening in 2002, Premier Aircraft Sales has grown from a single office in Fort Lauderdale, FL, to having offices in Fort Lauderdale, Orlando, Dallas, Houston, San Antonio, Atlanta, Auburn, AL, Charlotte, NC, and Vero Beach, FL. For new aircraft sales, the company represents two of the most dynamic general aviation aircraft manufacturers in the world – Diamond Aircraft and Mooney Airplane Company. Premier also specializes in the resale of top-quality pre-owned aircraft. For more information, visit our website at: www.premieraircraftsales.com.
