

SiriusXM Aviation

Complete, coast-to-coast high-resolution weather and in-flight entertainment

Satcom Direct® (SD) has partnered with SiriusXM® to bring customers superior graphical weather and satellite radio entertainment services, while flying. SiriusXM Aviation can help maximize situational awareness and provide commercial-free entertainment while in the air.

Two available packages:

Pro Weather

- NEXRAD Storm Cells
- Cloud-to-Cloud and Cloud-to-Ground Lightning
- TAFs and METARs
- High-Resolution Composite and Base Reflectivity
- 6 levels of graphics turbulence, icing, and more

Pro Weather and All Access Audio*

- 150+ channels of satellite radio
- Commercial-free music from every genre
- Live play-by-play sports
- Biggest news and talk shows
- Listen everywhere though the SiriusXM web player and app

Navigate with confidence and comfort throughout the entire flight. SD and SiriusXM can provide you with satellite delivered aviation weather and in-flight entertainment, all you need is a compatible receiver. Contact SD for more details.

*Must subscribe to SiriusXM Aviation Pro Weather Service in order to subscribe to All Access Audio package.
