

# Panasonic

## Delivering worldwide high-speed connectivity and live television

Panasonic delivers a superior solution to Business Aviation, offering global high-speed connectivity and live television all through a single antenna. With prioritized traffic, optimized bandwidth and a scalable open network architecture, Panasonic can easily meet any current and future bandwidth needs. Panasonic leverages the same network that has been successfully proven in commercial aviation and is active on over 1,350 aircraft today. Satcom Direct is proud to be the first Value Added Provider for Panasonic's newest connectivity service.

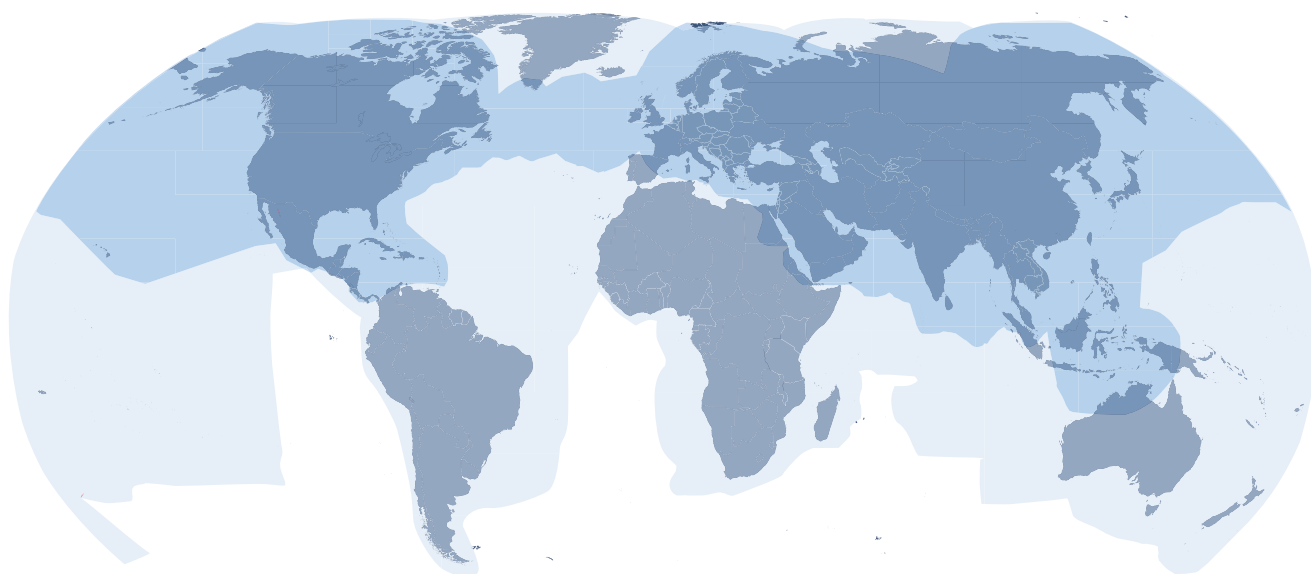

### Panasonic Features

- Live television: IP TV, DBS and streaming
- Email, call, and text
- Web browsing
- VPN
- Video conferencing
- Social media
- 24/7 network monitoring and customer support
- Innovative value added solutions

## Panasonic Worldwide Coverage Map

Take advantage of an unrivaled connectivity experience with service that is available worldwide and covers 99.8% of the world's flight routes.

■ Current Service ■ High Throughput Service: 2018

Note: Coverage map is subject to change

## Global Live Television

You don't have to miss a moment. Watch live news and sports events as they unfold without impacting your Wi-Fi session.

Stay up-to-date with breaking news through dedicated channels such as CNN and CNBC. Get into the game via Panasonic's exclusive Sport 24 channel and watch popular sporting events and leagues, including the NFL, Barclays Premier League, Wimbledon, the Olympics, and the FIFA World Cup.
